1 Pre-Collision Safety system with pedestrian detection is a driver assist feature only and not a substitute for safe driving practices. Driver remains responsible at all times for safe driving. Pedestrians may not be detected in certain conditions including low and harsh light, where partially obstructed from view, where clothing or movement obscures or effects body contours, persons under 1 metre or over 2 metres tall and where carrying or pushing large objects.

2 Pre-Collision Safety system with cyclist detection is a driver assist feature only and not a substitute for safe driving practices. Driver remains responsible at all times for safe driving. Cyclists may not be detected in certain conditions.
