## Your benefits

### Unlimited call outs

With Toyota Roadside Assist, you are entitled to the convenience of unlimited call outs. So you or anyone driving your Vehicle with your permission can contact us for assistance from anywhere in Australia. This is subject only to the General Exclusions that are detailed on page 15 of these Terms and Conditions.

### 24-hour telephone assistance

You can call us 24 hours a day, seven days a week for helpful advice on getting your Vehicle back on the road. If your Vehicle suffers a Breakdown, first we'll try to get you going with helpful advice over the phone. If your Vehicle remains immobilised, we'll send a recovery vehicle out to help you. We'll also advise you on convenient local transport services to help get you to your destination.

### Urgent messages to friends and family

If you have a Breakdown or Accident, we'll forward (at your request) any urgent messages to family, friends or business associates who need to know.

### Accident coordination

In the unfortunate event of you having an Accident, we'll help by providing all the relevant questions you need to ask the other parties involved and advise you on whether the emergency services need to attend. We'll also arrange to tow your Vehicle to your or your insurer's preferred smash repairer, at your or your insurer's cost. If required, we'll also help coordinate alternative transport, at your cost, so you can continue your journey.

## **Jump-starting or battery replacement\***

If you have a flat battery and can't start your Vehicle, we'll send a patrol vehicle to try and jump-start it. If it is determined that a replacement battery is required, we'll help arrange a replacement for you, at your cost.

If we are unable to safely jump-start or replace the battery, we'll arrange for your vehicle to be transported to the nearest Dealer (or Authorised Repairer if you are in a rural area).

*\*Note that in the case of Hybrid and Electric vehicles, jump-starting and battery replacement does not apply to the traction battery.*

## **Electric Vehicle charging**

If your Electric Vehicle runs out of charge, we'll send out a vehicle equipped with a charger and provide enough charge for you to safely drive to the nearest accessible Electric vehicle charging station.

If we are unable to safely charge your Electric Vehicle or if it will be faster to have your vehicle towed, then we will arrange for your vehicle to be towed to the nearest accessible charging station.

## **Tyre changing**

If you get a flat tyre, then we'll send out a vehicle to change it for you, using your serviceable spare tyre. If required, we'll also transport your Vehicle to an approved tyre outlet or Dealer (or Authorised Repairer if you are in a rural area), whichever is closer. Please ensure you advise us if more than one tyre is flat and/or if locking wheel nuts are fitted to your Vehicle, as these may hinder our ability to help. We're only liable to replace one flat tyre with your Vehicle's serviceable spare. However, if you have multiple flat tyres we will tow your Vehicle as per the towing benefits outlined. If the spare tyre in your Vehicle is unserviceable we can arrange a towing service at your cost. Any purchase of tyres is at your cost.

## **Emergency fuel**

If your Vehicle runs out of fuel, we'll provide enough fuel to get to the nearest available petrol /diesel station. In the case of LPG fuelled vehicles, we will tow you to the nearest LPG filling station.

## **Emergency access or key retrieval**

If you lose your Vehicle key or remote control or lock them in your Vehicle, once you have provided us with proof of ownership, we'll help you:

- locate and deliver a spare key or remote control;
- get into your Vehicle (an indemnity form will need to be signed); or
- retrieve a spare key or remote control, if more practical.

We'll help you to choose the best option. If your Vehicle can't be started or moved, then it'll be transported to the nearest Dealer (or Authorised Repairer if you are in a rural area). A limit of \$150 (including GST) per incident applies. Any amount above this will be your responsibility. We also strongly suggest you keep spare keys and remote controls in a safe but accessible place away from your Vehicle in case of emergencies.

## **Emergency taxi or ride share**

If your Vehicle has a Breakdown and has to be towed to the nearest Dealer (or Authorised Repairer if you are in a rural area), then we'll provide one taxi ride or ride share per incident, to a maximum value of \$50 (including GST) so that you, or the occupants, can continue travelling to the nearest town, or within the city of the Breakdown.

## **Towing**

If your Vehicle suffers a Breakdown in a metropolitan area and cannot be started, then we'll transport it to;

- a Toyota Dealership of your choice, up to 20km, or, if you do not have a preference;
- the nearest Toyota Dealership.

If your Vehicle suffers a Breakdown in a rural area and cannot be started, then we'll transport it to;

- a Toyota Dealership or Authorised Repairer of your choice, up to 50km, or, if you do not have a preference;
- the nearest Toyota Dealership or Authorised Repairer.

If the Breakdown has occurred outside of the Dealer's (or Authorised Repairer if you are in a rural area) business hours, your Vehicle will be stored securely then delivered to the nearest Dealer (or Authorised Repairer if you are in a rural area) on the next working day. If your Vehicle has a Breakdown whilst towing a registered caravan or trailer, we'll recover the caravan or trailer and transport it to the nearest convenient safe location, or to the Dealer (or Authorised Repairer if you are in a rural area) where we have towed your Vehicle (at our choice). A maximum limit of \$100 (including GST) per incident applies for transporting any caravans or trailers and any amount above this will be your responsibility.

## **Bogged Vehicle recovery**

We'll help recover your Vehicle if it's bogged as long as access is available to conventional two-wheel drive vehicles and no other specialist equipment is needed. If specialist equipment is required, we can coordinate this at your cost.

## **Emergency rental vehicle arrangements**

We will organise a rental vehicle for you should your Vehicle be immobilised due to mechanical or electrical failure, please note all the rental charges will be at your cost.

## **Emergency assistance cover**

If you don't have a Toyota Roadside Assist membership and you require assistance immediately, you can purchase a membership for an additional emergency assistance cover fee.

If you have purchased a Toyota Roadside Assist membership and require assistance within 48 hours of the membership start date, an emergency assistance cover fee will apply.

If you have purchased or received your Toyota Roadside Assist membership at the time of delivery of your Vehicle, through an authorised Dealer, the emergency assistance cover fee will not apply.

The emergency assistance cover fee, and 48 hour waiting period will not apply to renewed membership, provided you renew your membership on or before the renewal expiry date.

## **Additional benefits under Roadside Assist PLUS**

When listed in your Toyota Roadside Assist Schedule, Roadside Assist PLUS provides you with these additional services.

### **Tyre changing**

If the spare tyre in your Vehicle is unserviceable we will tow your Vehicle as per the towing benefit outlined. Any purchase of tyres is at your cost.

### **Emergency taxi or ride share**

If your Vehicle has a Breakdown and has to be towed to the nearest Dealer (or Authorised Repairer if you are in a rural area), then we'll provide one taxi ride or ride share per incident, to a maximum value of \$100 (including GST) so that you, or the occupants, can continue to the nearest town, or within the city where the Breakdown occurred.

### **Emergency hotel accommodation**

If your Vehicle becomes immobilised due to a mechanical or electrical failure, more than 100km from your Home or for longer than 24 hours, we'll provide you with up to two nights' accommodation, up to the value of \$150 (including GST) per night. This is when you decide to remain where the Vehicle is being repaired, or if alternative transport is unavailable. Any amount above this limit will be your responsibility. This benefit provides for your room only and excludes all incidental expenses such as meals, phone calls, laundry, etc. This benefit is only provided during the period your Vehicle is being repaired.

### **Emergency rental vehicle**

If your Vehicle becomes immobilised due to a mechanical or electrical failure, more than 100km from Home and for longer than 24 hours, then we'll provide you with a rental vehicle for up to five days, up to the maximum value of \$300 (including GST). Any amount above this limit will be at your responsibility. As the renter/driver of a rental vehicle, you will be responsible for all fuel costs, excess kilometre charges, any traffic infringements, any relocation fees, any damage and any excess or insurance waivers on the rental vehicle. This benefit is only provided during the period your Vehicle is being repaired.

### **Emergency parts supply**

If you decide to have your Vehicle repaired locally rather than transported, and the necessary parts are unavailable, we'll help locate and transfer the Required parts to the Dealer (or Authorised Repairer if you are in a rural area). We'll also coordinate delivery. However, all parts and Vehicle repair costs will be at your expense.

### **Alternative transportation**

If hotel accommodation or a rental vehicle is unavailable following the Breakdown of your Vehicle due to a mechanical or electrical failure, more than 100km from Home and for longer than 24 hours, then we'll transport you and up to four of your passengers Home or to your intended destination up to the maximum value of \$300 (including GST). Any amount above this will be your responsibility.
