

GR Corolla

Please Note: information is accurate as at January 2025.

Specification and imagery are indicative and should only be used as a guide. Vehicle and accessory specification, features, colour and trim may differ at the time of vehicle delivery.

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Build the ultimate driver relationship

• • • • •

Meet GR Corolla. The thrilling motorsport-bred representation of one of the world's favourite cars. Developed under race conditions with input from professional drivers, including Master Driver, Morizo, GR Corolla takes everyday performance into a new realm of capabilities.

Featuring advanced aerodynamic elements, outstanding power output, enhanced handling and braking, GR Corolla was forged through

a no-compromise evaluation of extreme motorsport and road conditions including gravel and snow.

Using experience from events such as the Super Taikyu Series in Japan, GR Corolla has been created purely to place the driver first.

Start your high-performance relationship with GR Corolla today.

**“Bring back a Corolla that
captivates our customers”**

Akio Toyoda

Chairman, Toyota Motor Corporation

The shape of speed

Every exterior element of GR Corolla has been shaped to perform, enhance the aerodynamics and improve on-road stability to produce a truly exhilarating driving experience.

Extended front and rear fender overhangs have been incorporated to improve aero management while the engine hood line

has been raised to accommodate functional heat discharging outlets. Slimmed down GR dedicated front and rear bumpers provide additional weight reduction and feature air ducts to improve airflow where it counts.

The aerodynamic performance of the design also produces greater downforce to support

extra stability and improved handling when cornering at higher speeds.

Aero stabilising fins and aero spats further reduce drag and improve airflow under the car to improve acceleration and help the GR Corolla feel fully connected to the road.

Pushing the limits

The GR Corolla was born from the already well acclaimed Corolla platform. First, the on-road stance was widened by 60mm to help seamlessly integrate the GR-FOUR AWD system into the body.

The chassis was then extensively race track tested and tuned by professional drivers in all conditions. The drivers also found the lower centre of gravity delivers genuine high-speed cornering performance and a greatly enhanced driving experience, especially when pushing GR Corolla to the limits.

Filmed on a closed private track. All driving is performed under controlled conditions.
Overseas model shown. Australian specifications and features may differ.

The strength you need

.....

The GR Corolla is built upon a frame that's hand finished at the TOYOTA GAZOO Racing factory in Motomachi, Japan. Hundreds of extra spot welds have been added to increase body rigidity and enhance the overall on-road stability and control characteristics.

Further body stiffness is gained with three under floor metal braces and one centre floor metal brace that help deliver sharper handling capability. The high-rigidity front suspension members are also finely tuned to help produce a genuine race car driving experience.

Leading the way

• • • • •

The front bumper integrates the GR functional matrix grille which is an exclusive GR design as featured across GR Yaris and GR86. The front bumper and grille forms have been optimised to balance the cooling performance and the aerodynamic performance.

The front bumper corners and grille help to control airflow under and around the car. Bi-Beam headlamps keep the way ahead bright at night and integrated Daytime Running Lamps (DRLs) help keep GR Corolla noticed 24/7 on the road.

Fast from front to back

The rear of the GR Corolla has been shortened compared to the Corolla to further enhance aerodynamic performance and on-road stability. The wheel house duct draws in the air flow from the front along the side to reduce turbulence and enhance handling stability. The unique chrome finished triple exhaust also adds greater emphasis to the powerful rear design.

The rally-like 18" black alloy wheels feature a multi axis spoke structure to provide greater structural rigidity. They're matched with performance tyres to handle the power of GR Corolla and the demands of challenging driving conditions.

September 2023 to September 2024 production model shown. October 2024 production models onwards have updated specifications. Speak to your Dealer for more details.

The image shows the interior of a Toyota GR Corolla, focusing on the driver's side. The dashboard, center console, and steering wheel are visible. The interior is illuminated with a vibrant red ambient light that highlights the contours of the car's body and the stitching on the seats. The steering wheel has a red center cap. The center console features a gear shifter and handbrake. The overall atmosphere is sporty and high-tech.

Take centre stage

.....

Inside GR Corolla has been created as the perfect space to accentuate the joy of performance driving.

The subtle design lines and black base colouring help reduce driver distraction and feature stylish GR dedicated and dark silver highlights.

September 2023 to September 2024 production model shown. October 2024 production models onwards have updated specifications. Speak to your Dealer for more details.

Technology at your fingertips

• • • • •

The digital Multi Information Display (MID) can be customised to support drivers requiring multiple information sources navigation with 'map' only display, audio and vital trip information. It can also be switched to support circuit, performance or general road driving conditions.

The 12.3" GR dedicated digital dash is designed to support sports driving with a selection of graphic layouts inspired by genuine circuit and race car read-outs. Apart from detailed engine and performance data, the display also includes a G-Force monitor and engine boost meter.

Control centre

Inside the race inspired GR Corolla is where the driver can prepare for action and become as one with the car.

The race track developed leather accented GR sports seats in the GTS are wrapped in Brin Naub®¹ suede with silver trim accents. Featuring GR insignia, they're specially shaped to provide outstanding support when driving hard.

The premium GR 3-spoke steering wheel provides enhanced grip and feel to support sports driving. It places essential controls within reach for easier operability without the hands needing to leave the wheel.

The centre console features a GR marked gear shifter with a dark silver decorative ring and is placed to work harmoniously with the steering wheel when driving hard. The parking brake is also placed to provide better grip.

Take total control

• • • • •

When driving for maximum performance the race styled lightweight aluminium pedals provide greater grip and confidence under foot for stress free gear shifting.

The manual six-speed gear box features optimal gear ratios for enhanced power and driving performance, with the short stroke shift lever enabling quick gear changes when driving hard.

September 2023 to September 2024 production model shown. October 2024 production models onwards have updated specifications. Speak to your Dealer for more details.

Rapid Shifting

• • • • •

If you prefer to concentrate on handling and braking in high-performance driving situations, an 8-speed automatic transmission has been developed for GR Corolla that maintains its motorsport credentials, delivering optimally timed gearshifts due to precise monitoring of vehicle parameters. This is a dedicated sports automatic transmission able to satisfy even a racing driver.

To ensure it can handle the extremes of racetrack and motorsport driving, the transmission fluid is temperature-controlled by a water cooler, as well as an additional air cooler. A sub-radiator has been added to enhance engine cooling, and all high-temperature transmission-case components feature cooling fins to maintain ample cooling performance, even during severe circuit driving.

A Torsen Limited Slip Differential (LSD) has been developed for use with the automatic transmission to improve front-wheel traction and enhance dynamic agility and drivability in sports driving.

Superb grip and response

• • • • •

The race tuned GR-FOUR AWD system in GR Corolla provides incredible response and controlled acceleration in all driving conditions from suburban streets to race track runs.

It precisely manages the torque distribution for enhanced control and balance, especially during sports driving. It sends the power to the wheels that need it most for maximum response and automatically responds to changing road surface conditions.

With GR-FOUR AWD, the driver can also manually adjust the front/rear torque distribution to match the driving situation. Choose 60:40 balance for everyday driving, 30:70 to tackle winding roads with greater linear response and 50:50 balance for maximum traction when taking on circuit conditions.

Maximum connection

The GR Corolla features a highly rigid lightweight MacPherson strut suspension system on the front and a wide trailing double wishbone suspension on the rear. This set-up helps maintain maximum contact with the road in all conditions with outstanding cornering, braking and acceleration performance.

The diameter of the front stabiliser bar has also been increased to optimise roll rigidity and the rear stabiliser tuned to elevate the steering response.

The 355mm ventilated front discs are matched with four-pot red GR calipers and the 298mm ventilated rear discs with two-pot red GR calipers. Together they provide outstanding braking force and assured control to match genuine race driving conditions.

September 2023 to September 2024 production model shown. October 2024 production models onwards have updated specifications. Speak to your Dealer for more details.

The power to excite

• • • • •

The 1.6L 3-cylinder turbocharged engine has been developed using the latest motorsport technology and race data to provide maximum performance and driving enjoyment.

It produces 221kW^2 of power with 400Nm^2 of torque on the GTS, to deliver outstanding response right throughout the rev range.

The GR badged engine cover optimises airflow across the engine towards the exhaust to enhance cooling performance.

A sweet sound

More than providing the rear end of GR Corolla with a sense of presence, the triple exhaust configuration supports a higher output and generates a satisfyingly powerful exhaust sound.

An exhaust valve and actuator opens to reduce back pressure when the engine is at high output and generates greater sound at lower engine speeds.

Toyota Connected Services³

1 year complimentary access

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety and convenience for a better driving experience, all seamlessly integrated into the myToyota Connect app.³

Learn more, and discover the Toyota Connected Services on your vehicle by visiting toyota.com.au/connected

For Toyota Connected Service Packages see www.toyota.com.au/connected/plans-packages

Test drive the app now, no Toyota required:

Safety and Security

People and property are precious. Toyota Connected Services' advanced features are designed to help protect them all. In emergencies, you can utilise push-button SOS Emergency Call^{4,5} (SOS). It contacts Toyota Emergency Assistance directly, guiding services to your location. In the event of a collision, Automatic Collision Notification^{4,6} (ACN) is designed to activate, calling you directly in-car, and if you are unresponsive, dispatching emergency services to that location. Should your car be reported stolen, Stolen Vehicle Tracking^{4,7} (SVT) will utilise vehicle tracking technology via our Stolen Vehicle Assistance Call Centre to help police to potentially recover your vehicle.

Remote Connect

Control vehicle functionality, even when you're not in the driver's seat. Our Connected features enable you to lock and unlock doors and boot, as well as activate remote horn buzzer, hazard and headlights. Perfect for locating your vehicle in a crowd, or just flagging emergencies.

The Connected features in the automatic transmission additionally allow you to remotely start the engine and air conditioning system.²²

Driver Insights

The myToyota Connect app gives you a complete view across your entire drive. Review recent trips and, with Drive Pulse Score,⁸ understand how braking and cornering can be improved to help maintain your car. The features let you run quick checks on odometer, fuel levels and distance to empty⁹ to aid journey planning. You can also spot unlocked doors or windows left open away from your car using the in-app Vehicle Status features, and set up alerts. A Vehicle Locator also helps you find where you last parked, and our Glove Box feature opens access to digital warranty and manuals for you.

Multimedia Connect

Toyota's interconnected multimedia platform includes Connected Navigation which provides current parking availability, traffic, weather and fuel prices for your journey. Through Connected Voice Assistant, control vehicle features including navigation, audio and climate settings. With Connected Trip Start and Finish features you can plan routes, search a point of interest and send it to your car. When driving and not reaching your endpoint, the app notes the full route when you park, allowing you to continue navigation on foot with your phone or device.

Unlock it all

.....

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Toyota Genuine Accessories¹⁴

Developed alongside the vehicle, this unique advantage allows Toyota to design accessories, so they integrate harmoniously with the vehicle structure and safety systems. For more information, visit toyota.com.au/vehiclepayload

Toyota Service Advantage¹⁵

We'll keep the cost of your standard logbook service at a capped price for up to your first 3, 4 or 5 years on the road, depending on the vehicle model. To find out your low capped service price, visit toyota.com.au/owners/service/service-pricing-calculator

Toyota Genuine Insurance¹⁶

With Toyota Genuine Insurance you're not alone. Over 350,000 Toyota owners have chosen Toyota Insurance because they know their Toyota's in safe hands. For more information, visit toyota.com.au/insurance

Toyota Access

Offers you flexible finance options, possible lower monthly repayments¹⁷ and a Guaranteed Future Value.¹⁸ That's the worth Toyota Finance places on your car at the end of your loan term subject to fair wear and tear and agreed kilometres being met. For more information, visit toyota.com.au/toyota-access

Toyota Certified Pre-Owned Vehicles

Enjoy the reassurance that comes with a Toyota Certified Pre-Owned Vehicle. Including additional 1-year Toyota-backed warranty,¹⁹ full-service history and 90-point inspection by Toyota Technicians. For more information, visit toyota.com.au/promo/tcpowarranty

Toyota Warranty Advantage²⁰

Stick to your annual service schedule, and we'll extend your engine and driveline warranty from five to seven years, so you can drive stress-free for longer. For more information, visit toyota.com.au/owners/warranty

Disclaimers and Notice

- 1 Product and company names are trademarks of their respective owners.
- 2 Power and torque test standards differ. Ensure comparisons use same test standard.
- 3 Connected Services complimentary period ends 1 year from delivery date. Fees may apply thereafter. See toyota.com.au/connected/plans-packages. Not available outside Australia, if services disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Dependent on 3G/4G enabled DCM, GPS signal strength, mobile network coverage and other factors outside Toyota's control which can limit ability or functionality of system. Requires compatible device and app installation, third party info and mobile data. Mobile usage at user's cost. Check toyota.com.au/connected or your Owner's Manual for explanation of limitations. Features subject to change. Please drive safely.
- 4 Driver assist feature only. Not a substitute for safe driving practices. Dependent on operational related components and other factors outside Toyota's control which can limit ability or functionality of system. Check your Owner's Manual for explanation of limitations. Please drive safely.
- 5 SOS – Only operates if vehicle's SOS button is pressed and vehicle ignition is on.
- 6 ACN – Only activates if vehicle's DCM detects airbag deployment or impact sensor notification.
- 7 SVT – Owner/driver required to obtain Police report. Dependent on sufficient battery power. Vehicle location information, if available, only provided to Police. Vehicle recovery not guaranteed.
- 8 Recent trips and drive pulse process may take up to 48 hours to appear in the myToyota Connect app. Drive Pulse measures harsh cornering, fast acceleration and harsh braking, and provides drive pulse score based on these factors. Not to be used as general driver performance measure. For more details, see toyota.com.au/connected/driving-insights/recent-trips-drive-pulse
- 9 This distance is approximate only and may vary due to driver behaviour, vehicle load, vehicle usage and traffic conditions. Please drive responsibly.
- 10 Torsen® is a registered trademark of JTEKT Corporation.
- 11 Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely.

from participating Dealers, via our website at toyotainsurance.com.au or by calling to the current PDS and Target Market Determination for the relevant product available from participating Dealers, via our website at toyotainsurance.com.au or by calling 137 200. Toyota Car Insurance purchased in a dealership or via the Toyota Insurance National Customer Solutions Centre is facilitated by Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536 as agent for, and on behalf of, the insurer. The insurer of Toyota Car Insurance is Aioi Nissay Dowa Insurance Company Australia Pty Ltd ABN 11 132 524 282, AFSL 443540 (Adica). If Toyota Car Insurance is purchased online, the issuer and insurer is Adica. *This figure represents the total number of Toyota vehicles that have been insured by Toyota Insurance as at November 2021.

- 17 Lower monthly repayments compared to a similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.
- 18 Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Toyota at the end of your finance contract, as determined by Toyota Finance subject to fair wear and tear and agreed kilometres being met. Ask your dealers for more information. Approved applicants only. T&Cs apply. Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536.
- 19 Applicable to pre-owned vehicles purchased as a Toyota Certified Pre-Owned (TCPO) vehicle on or after 01/01/2022. TCPO 2022 Warranty expires 1 year after sale, or 1 year after the current New Vehicle Warranty expires (if applicable), or 10 years from date of registration in original owner's name, or at 160,000kms (whichever occurs first). TCPO Warranty does not apply to vehicles used for commercial purpose (eg taxis or rideshare). See toyota.com.au/tpcowarranty for T&Cs. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
- 20 The Toyota Warranty Advantage Extended Engine and Driveline coverage is for 7 years from delivery, provided your vehicle is properly serviced and maintained per its Warranty and Service Book. Excludes vehicles used for a commercial purpose, such as taxis, hire vehicles and vehicles transporting people or goods for payment including rideshare. See toyota.com.au/owners/warranty for details. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
- 21 Not available outside Australia, if services disabled or terminated, or after 2033/Telstra 4G sunset (whichever comes first). Dependent on sufficient battery power, 3G/4G enabled DCM, GPS signal strength, mobile network coverage and other factors outside Toyota's control which can limit ability or functionality of system. Requires compatible device and app installation, third party info and mobile data. Mobile usage at user's cost. Check toyota.com.au/connected or your Owner's Manual for explanation of limitations. Features subject to change. Please drive safely.
- 22 Not available on all Connected Vehicle models. Please check toyota.com.au/connected to confirm availability.
