OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Unbeatable strength

With over 50 years of hard-working heritage, HiLux has built a legendary reputation. It's the trusted partner for those who want to get the job done, then be equally ready when it's time to play.

Today's HiLux is easily the best yet, with a contemporary new look to highlight its exciting advances in technology and equipment. All HiLux Double-Cab and Extra-Cab diesel models get a dynamic new front-end with a Dakar-inspired bumper design, honeycomb mesh grille, and on SR5 grades, dark-finish LED headlamps and modern dark styling elements to complement its new powder-coated black sports bar.

HiLux Rogue has an even tougher appearance with striking exterior features and a wider stance for superior handling.

It has been specifically developed and tested here in Australia with years of local experience. Inspired by the Dakar Rally HiLux, the muscular design of the HiLux GR Sport is both powerful and functional, with unique features that enhance its on and off-road performance, including increased power and torque.

From the WorkMate all the way through to GR Sport, every HiLux has been designed and built to meet Toyota's highest standards. This makes them as tough as the Australian Outback, yet superbly refined to accommodate any family adventure or social occasion.

With such unbreakable spirit, the HiLux range has never been stronger.

Built for action

On the road, off-road, on the job or wherever you steer your HiLux, you can be confident it'll be up to the task with an inspired range of well-considered features and innovations.

A new tailgate damper on all Pick-Up variants – from WorkMate to GR Sport – enhances convenience by providing lift assistance courtesy of a new gas strut. It eases the tailgate open and lightens the effort when lifting it closed. In the SR, SR5, Rogue and GR Sport, the air-conditioned cooler box will help keep your

favourite refreshments and snacks chilled to enjoy after work or on the school run.

All SR Double-Cab 4x4 automatic variants get front and rear parking sensors as standard, plus an available option pack with front dual-zone climate control, smart entry and start, floor carpet, and auto up/down power windows on all doors – making life in HiLux SR even more luxurious. Front dual-zone climate control will maintain the temperature at the ideal level for maximum comfort.

Relax, everything's in place to make every day great with HiLux. Once the sun goes down, the auto-dimming interior mirror on Rogue automatically adjusts for night driving conditions.

When it comes to shouldering the load, all HiLux 4x4 models have up to 3,500kg braked towing capacity and 4x2 HiLux diesel up to 2,800kg braked towing capacity.³

4x4 SR5 Double-Cab Pick-Up in Graphite¹ shown

Equipped for work and play

The robust exterior features of HiLux are finely balanced by the latest technology and advanced creature comforts that create the perfect interior in which to work, travel and play.

You can jump in and get moving with the hands-free convenience of smart entry and start system on SR5, Rogue and GR Sport.

The 8" colour touchscreen display provides seamless connectivity using Apple CarPlay®⁴ and Android Auto™⁴ – your dealer will be able to confirm whether your device is compatible. Rogue and GR Sport enjoy powerful 9-speaker JBL® sound with subwoofer, while SR and SR5 Double-Cab feature 6 speakers, and WorkMate two speakers. Other handy features on all Pick-Up models include Bluetooth® connectivity, enhanced voice recognition and a reversing camera.

Satellite navigation with SUNA traffic updates and Digital Radio are standard on SR5, Rogue and GR Sport, along with the addition of a wireless phone charger in all SR5 Double-Cab automatic variants, and a pair of USB-C ports at the rear of the centre console for even greater ease of connectivity.

The 4.2-inch Multi-Information Display in the instrument pack provides essential driver safety support including front-wheel turn angle and gap alerts from the front and rear parking sonar in Rogue, GR Sport and SR5 Pick-Up models.

On cooler days, you'll appreciate the warmth of heated front seats in Rogue and GR Sport, and as an option on SR5 4x4 Double-Cab models.

Powerful performers

After over 50 years navigating harsh Australian terrain, cutting edge design and expert engineering, outstanding performance is integral to the HiLux DNA and helps deliver the strength and reliability you need when the going gets tough.

A new development of Toyota's renowned 1GD 2.8L turbo diesel engine powers Rogue and all 4x4 Double-Cab 6-speed automatic versions of SR5, as well as SR Double-Cab automatics optioned with the V-Active (48V) pack.

Incorporating the latest powertrain thinking and technology, the V-Active (48V) 2.8L turbo diesel engine features a modern 48-volt electrical system that enhances performance, smoothness and fuel efficiency, as well as driveability both on-road and off-road while reducing tailpipe emissions.

Impressive engine outputs of 150kW and 500Nm remain unchanged, however the V-Active (48V) 2.8L reduces fuel consumption by up to 9 percent.

The existing 1GD 2.8L turbo diesel powers all other SR variants, the SR5 Extra-Cab and SR5 Double-Cab manual. It produces a highly responsive 150kW of power and 500Nm of torque with the 6-speed automatic transmission, and 420Nm with the 6-speed manual transmission.

WorkMate is available with a choice of either 2.7L petrol or 2.4L turbo diesel power. The petrol engine produces 122kW of power and 245Nm of

torque, and the turbo diesel combines 110kW of power with 400Nm of torque.

V-Active (48V) equipped 2.8L models debut a new Multi-Terrain System (MTS) with six selectable modes (Auto, Dirt, Sand, Mud, Deep Snow and Rock) to enhance ground-covering performance and vehicle safety and control in challenging situations. Other SR and SR5 models feature Drive Mode Select, with Eco Mode for

reduced power consumption, and Power Mode for sharper acceleration and a more agile drive.

To help provide added driver confidence and improved handling, Rogue stands taller and wider. With a track width increase of 140mm, and front and rear height increased by 20mm, its bulked-up presence is matched with larger 17" front disc brakes and specially tuned suspension.

Unmistakably bold

The bold, cutting-edge exterior lines of HiLux create a truly powerful yet contemporary statement of strength, whether you're on the worksite or out on the road.

The angular styling with extended wheel arches featured on all HiLux wide-body styles (applicable to certain variants only) creates 33 different configurations across the range, so you can find your perfect match.

HiLux has had its face freshened, but Double-Cab and Extra-Cab diesel models go a step further

with a bold, Dakar-inspired front bumper, distinctive new honeycomb mesh grille, sharper bonnet design, and a heightened sense of agility and modernity.

Uniquely, SR5 features the sinister dark-finish LED headlamps from Rogue and GR Sport, as well as gloss and matte-black styling details for a stronger, more inspiring contemporary look. The privacy glass on every SR5 and Rogue also provides an element of practical refinement. The Motorised Roller Cover with resin sailplane sports bar on Rogue provides water and dust

resistance in most situations to help keep your tools and gear secure and clean. It's built tough with smart operation functions including anti-pinching, anti-tamper and adjustable aperture. The LED lighting clearly illuminates the cargo space, plus you'll find an integrated 12V socket located in the rear tub. The tailgate can also open independently of the cover then centrally lock again.

With the proven combination of on-road comfort and work hardened capability, HiLux delivers the ultimate in style, strength and choice to suit your needs.

4x4 Rogue Double-Cab Pick-Up in Oxide Bronze¹ shown

HiLux GR Sport

With its powerful stance, completely new front styling and unique G-Mesh grille with 'TOYOTA' lettering, there's no mistaking the HiLux GR Sport for anything else.

Muscular styling combines a functional design with emotional appeal, making the GR Sport the most accomplished HiLux yet. With unique wheel arch extensions and a tough new front bumper design, the GR Sport directly references the successful Toyota GAZOO Racing Dakar HiLux.

Gloss-black exterior details and weight-optimised alloy wheels are highlighted by red brake calipers with GR logos, and on three select colours¹⁷ (Glacier White, Frosted White and Feverish Red), can be complemented by a gloss-black¹ roof finish to emphasise the performance focus of the HiLux GR Sport.

Its black interior is enhanced by red accents, with unique red seatbelts and a red centre mark on the GR Sport leather accented wrapped steering wheel. Combined with paddles shifters, aluminium pedals, heated sports front seats with leather appointed and suede upholstery, and a unique start-up screen featuring the GR logo, every driver will know that this range-topping HiLux is special.

The HiLux GR Sport gets its own GR-branded key fob for the Smart Entry and Smart Start system, as well as a five-piece moulded tub liner for the rear tray with an anti-slip floor and a GR-branded headboard.

4x4 GR Sport Double-Cab Pick-Up in Feverish Red with black roof¹ shown

Unmistakable heritage

Taking inspiration from the GAZOO Racing Dakar HiLux, the HiLux GR Sport is more than just a head-turning styling makeover. It offers updated engine outputs, uniquely tuned suspension and functional styling improvements for superior performance.

The HiLux GR Sport lives up to its name by offering a 10 percent increase in power and torque. Its 2.8L 4-cylinder turbo diesel engine delivers 165kW and 550Nm for stronger acceleration, and the 6-speed automatic transmission has been optimised for faster gearshift speeds and sportier performance.

Utilising the knowledge gained through Toyota's motorsports activities, the GR Sport features aerodynamic enhancements including a tough new front bumper design that incorporates unique

'air curtains' to direct air around the front wheels and reduce turbulence in high-speed conditions.

This design also applies to the GR Sport powder-coated alloy skid plate, heavy-duty 'rock rails' that protect the lower sill area from underbody damage, and a newly equipped tow bar that increases rear frame rigidity.

The HiLux GR Sport combines this built-in toughness with a fun-to-drive nature. Further enhancing its wide-track stance and 265mm of ground clearance¹⁶ is a completely unique suspension tune. The result is an intuitive and confident cornering stance, and outstanding control.

Strong, smart and safe.

Travelling in HiLux means you'll also enjoy the reassuring sense of protection that comes from a range of advanced safety features.

The impact absorbing body is designed and built to reduce impact in a collision and the high tensile steel provides greater upper and underbody strength. The steering and suspension have also been tuned to local conditions to improve the overall ride comfort and handling when taking on rough roads and bumpy trails.

There are seven SRS airbags fitted as standard that help provide a protective barrier around the interior space. On Double-Cab models, you'll find ISOFIX anchors for two child restraints in the rear seat including two top tether anchors.

On the road, Blind Spot Monitor⁶ (available on Double-Cab Pick-Up SR5, Rogue and GR Sport) provides a visual alert to vehicles you may not see, and when you're reversing out of a parking spot into traffic, you'll have Rear Cross Traffic Alert⁶ to assist you.

When engaged, drive start control can automatically help suppress the impact of sudden acceleration. Should cross winds, road conditions or steering actions cause a trailer to begin to sway, Trailer Sway Control⁶ is designed to help to bring movement under control.

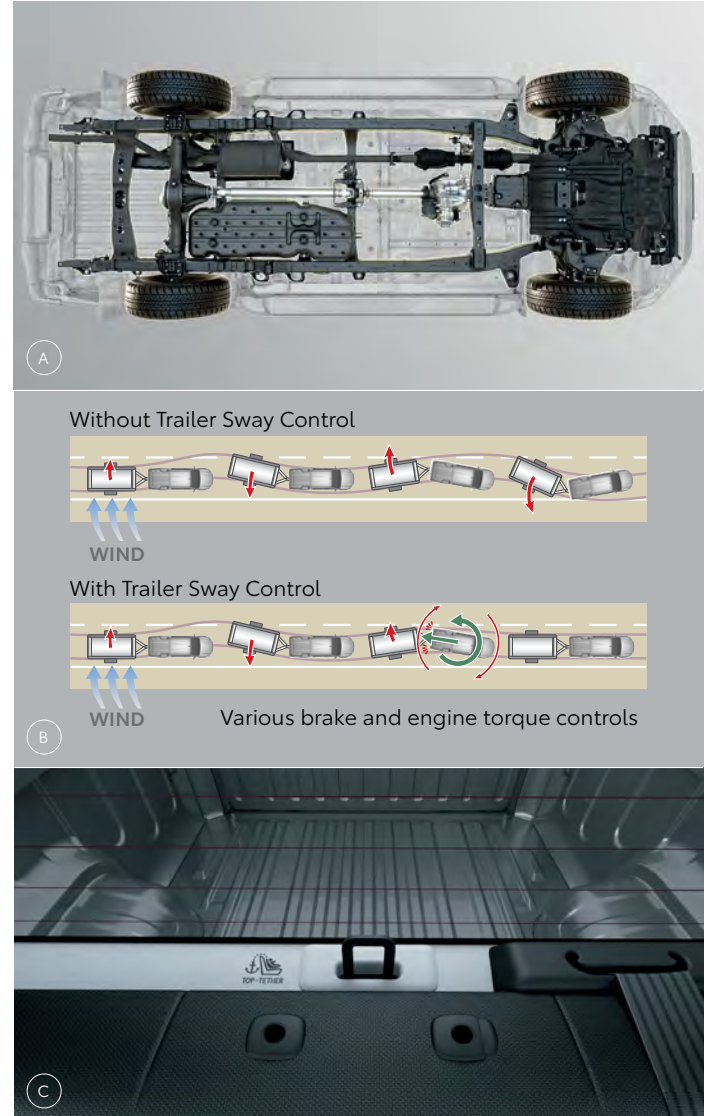

On SR 4x4 Double-Cab automatic and SR5 4x4, Downhill Assist Control⁶ helps to prevent excessive speed and provide greater control on downhill slopes when activated.

Plus, you'll have the added help of Toyota Safety Sense⁶ fitted as standard on every HiLux across the range.

Toyota Safety Sense

Toyota
Safety
Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense⁶ (TSS). A suite of active safety features designed to help protect us all through helping to support safe driving.

HiLux features TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Please visit toyota.com.au for vehicle and specification information.

Pre-Collision Safety system with pedestrian and daytime cyclist detection

Pre-Collision Safety⁶ (PCS) system with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS system is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. The PCS system includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable automatic braking to help mitigate impact.

Active Cruise Control (high speed)

Active Cruise Control⁶ is designed to help keep a constant distance between vehicles. It uses a millimeter wave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.

Lane Departure Alert

Lane Departure Alert⁶ is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane.

Road Sign Assist (speed signs only)

Road Sign Assist⁶ was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.

Toyota Connected Services⁸

3 years complimentary access⁸

Driving should be easy, enjoyable and safe. That's why inside every connected Toyota you'll find a suite of advanced features focused on safety, convenience and a better driving experience.

To learn more, please visit toyota.com.au/connected

myToyota Connect⁹

In a world driven by information, the myToyota Connect app allows you to seamlessly integrate your smartphone with Toyota Connected Services. You can receive diagnostic details including the odometer and fuel level, as well as access to your Owner's Manual. You can also see travel details,¹⁰ such as time and distance on the road plus the last known location and parking spot.

Automatic Collision Notification¹² (ACN)

Every second counts when assistance is needed the most. Should an airbag deploy or a severe collision be detected by the impact sensors, Toyota Automatic Collision Notification (ACN) is designed to automatically connect with our 24/7 Toyota Emergency Assistance call centre. If you're unable to communicate or respond, we'll immediately contact emergency services and direct them to your vehicle's location.

Stolen Vehicle Tracking¹¹ (SVT)

Should the unthinkable unfortunately occur, you'll have the peace of mind of knowing Toyota Stolen Vehicle Tracking (SVT) is designed to help find your missing vehicle. After filing a stolen vehicle report to the police, and providing your VIN and police report number to a Toyota Stolen Vehicle Assistance agent, the agent will validate your SVT subscription and initiate tracking. They can then provide updates to the police to assist with the potential recovery of your vehicle.

SOS Emergency Call¹³

If the situation ever arises where you require urgent assistance, it's comforting to know help can be available at the touch of a button. In the event of a genuine emergency, you can speak directly to a Toyota Emergency Assistance agent, 24/7, simply by pressing the dedicated SOS button in your vehicle. If required, they can direct emergency services to your vehicle's location.

- 17 Toyota Australia reserves the right to vary or discontinue the current interior and exterior colours, trims and colour/ trim/model combinations. Colours and trims displayed are a guide only and may vary from actual colours due to printing/display process. See your Toyota Dealer to confirm availability when ordering your vehicle.
- 18 Use of recovery points has safety risks which must be assessed and managed before every recovery operation. Incorrect use of the recovery points may result in death, serious injury or vehicle damage. Always follow warnings and instructions provided on the vehicle and in the Owner's Manual.
- 19 Standard scheduled logbook services only. T&Cs apply. Visit toyota.com.au/advantage
- 20 Terms and conditions apply. This advice is general in nature and does not take into account your objectives, financial situation or needs. Before making a decision to purchase any of the insurance products you should consider the appropriateness of the advice taking into account your own objectives, financial situation and needs and refer to the current PDS and Target Market Determination for the relevant product available from participating Dealers, via our website at toyotainsurance.com.au or by calling 137 200. Toyota Car Insurance purchased in a dealership or via the Toyota Insurance National Customer Solutions Centre is facilitated by Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536 as agent for, and on behalf of, the insurer. The insurer of Toyota Car Insurance is Aici Nissay Dowa Insurance Company Australia Pty Ltd ABN 11 132 524 282, AFSL 443540 (Adica). If Toyota Car Insurance is purchased online, the issuer and insurer is Adica. *This figure represents the total number of Toyota vehicles that have been insured by Toyota Insurance as at November 2021.
- 21 Lower monthly repayments compared to a similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.
- 22 Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Toyota at the end of your finance contract, as determined by Toyota Finance subject to fair wear and tear and agreed kilometres being met. Ask your dealers for more information. Approved applicants only. T&Cs apply. Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536.
- 23 Applicable to pre-owned vehicles purchased as a Toyota Certified Pre-Owned (TCPO) vehicle on or after 01/01/2022. TCPO 2022 Warranty expires 1 year after sale, or 1 year after the current New Vehicle Warranty expires (if applicable), or 10 years from date of registration in original owner's name, or at 160,000kms (whichever occurs first). TCPO Warranty does not apply to vehicles used for commercial purpose (eg taxis or rideshare). See toyota.com.au/tcpowarranty for T&Cs. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
- 24 The Toyota Warranty Advantage Extended Engine and Driveline coverage is for 7 years from delivery, provided your vehicle is properly serviced and maintained per its Warranty and Service Book. Excludes vehicles used for a commercial purpose, such as taxis, hire vehicles and vehicles transporting people or goods for payment including rideshare. See toyota.com.au/owners/warranty for details. This warranty does not limit and may not necessarily exceed your rights under the Australian Consumer Law.
